Pre-participation Physical Exam / Immunization Form, and Appryse Athletic Participation Forms

All incoming freshman and transfer students are required to enroll on Appryse, regardless of whether a student intends to join an athletic team. The deadline to enroll in Appryse is August 3, 2018.

What is Appryse?
Appryse is a web-based system used to track medical history, contact information, and Pre-participation Physical Exam (PPE) and immunization forms. Parents are able to enter all information online including uploading or faxing the PPE/Immunization form directly to Appryse. It also allows you to electronically submit Athletic Participation Forms, Emergency Information, and electronically sign the following required forms: Policies and Procedures, Awareness of Injury Risk and Consent to Treat, Concussion Parent/Athlete Information, Awareness of Sports Injury Risk, and Sudden Cardiac Arrest Information.

A few features:
- You will not need to submit a hardcopy or mail physical forms/immunization forms.
- The PPE form will have a bar code unique to your child and will include an immunization portion.
- Appryse will contact parents to alert when their child’s physical is close to expiring.
- Two parents/guardians can have equal access to the same account and receive all the same alerts and messages from Appryse.

Enrolling on Appryse
Please enroll your child on Appryse by going to:
https://app.appryse.com/enroll/AYU6SC25
To sign in after enrollment, please bookmark https://app.appryse.com

Information regarding your son or daughter’s medical history and contact information should be updated throughout the year as needed.

Important notes before enrolling
- Enrolling in Appryse will allow you to download a blank 2018-19 SHC Pre-participation Physical Exam (PPE) form, which will include your child’s name, immunization portion, and a barcode. Only this SINGLE page Appryse PPE form will be accepted. A separate immunization form will not be recognized by Appryse.
- We will not accept hard copies of PPE forms.
- Please make sure the Appryse SHC PPE/Immunization form is properly completed by the physician - signed and dated or it will not be accepted. It must be dated June 1, 2018 or later.
- Only forms completed by an MD or DO will be accepted. We will not accept forms completed by other health care professionals such as registered nurses (RN), nurse practitioners (NP), physician assistants (PA), and chiropractors (DC).
- The parent should either fax the Appryse SHC PPE form to the number at the top right of the physical form, or scan and upload it directly to Appryse.
- Do NOT upload or fax a different physical form, as this will not be recognized by the Appryse system and will NOT be accepted.
- Questions or problems during enrollment should be directed to Appryse. Click the “Contact Support” button on the Appryse website.
